

# Type 1002F Model B Semiautomatic Bag Closing Machine

The 1002F "Model B" is designed for use in the field for packaging lettuce and cauliflower. It features a stainless steel lok track designed to withstand the various conditions associated with a "field environment".

The 1002F "Model B" uses Kwik Lok's® popular all-plastic Series "R" (Medium Duty) and Series "S" (Heavy Duty) Striplok Bag Closures. The machine is so simple to operate, even inexperienced operators can quickly learn to close up to 30 bags per minute!

Series R (Medium Duty) & Series S (Heavy Duty)

TYPE	MODEL	CLOSURE	SPEED
1002F	B	Series R (Medium Duty) and Series S (Heavy Duty)	30 BAGS/MIN
