

# Type 1002F Semiautomatic Bag Closing Machine

1002F Model A

The 1002F Model C features a Trodat® printer which uses "grooved, press-on" rubber type. Press-on type permits customizing of imprint copy. The 1002F Model D features a Trodat Band Printer for printing dates. Models C & D require the use of Series "RL" or "SL" closures. These closures are manufactured with a small paper label affixed to the closure. The 1002F Model A uses Kwik Lok's Series "R" and Series "S" Striplok® Bag Closures. The closures cannot be printed.

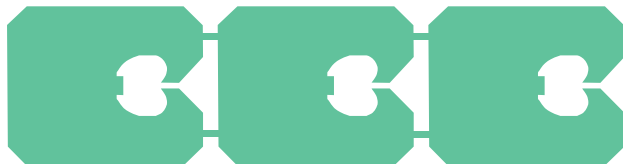

The 1002F can be portable, or permanently mounted. Suction-cup feet allow the portable unit to be used on any flat, clean surface. Bolt holes are pre-drilled for permanent mounting (bolts are not included). A kit is also available for mounting the machine on an Oliver Slicer.

## 1002D Models

TYPE	MODEL	CLOSURE	PRINTER
1002F	AR	Series R (Medium Duty)	NONE
1002F	AS	Series S (Heavy Duty)	NONE
