Jack Cuthbert's Bakery and Kwik Lok: A partnership rooted in quality, sustainability, and innovation.

Jack Cuthbert's Bakery based in Midleton, County Cork, is a 21-year testament to Irish baking craftsmanship, and has always prioritized quality and sustainability. Their partnership with Kwik Lok is a natural fit, given our shared commitment to innovation and environmental responsibility.

When it was time to upgrade their packaging equipment, Jack opted for Kwik Lok's state-of-the-art 910A bag closing machine and 915A programmable thermal ink jet printer. The 910A's enhanced features and user-friendly design, coupled with the 915A's superior print quality, have significantly improved efficiency and product appeal at Jack Cuthbert's Bakery.

To ensure a seamless transition and maximise equipment performance, Kwik Lok engineer Mike Cote provided on-site training and support. Mike's expertise was invaluable in helping Jack's team optimize their new machines.

Impressed by the durability of Jack's previous Kwik Lok closing machine, Mike suggested a refurbishment option. Kwik Lok offers a unique opportunity to extend the life of your equipment while reducing environmental impact. Our refurbishment process involves a complete overhaul by experienced engineers - often those who originally built the machines. This ensures long-term reliability and performance.

By refurbishing your equipment, you not only save on costs but also gain access to our expert engineer's ongoing support. This means you can rely on the same skilled technician for maintenance, troubleshooting, and future upgrades. Jack said "As a business committed to sustainability, I'm pleased with Kwik Lok's refurbishment program. It's a great way to extend the life of equipment and reduce waste. It aligns perfectly with our environmental goals."

Experience the Kwik Lok difference. Upgrade your bakery today.

- **Improved efficiency** with the 910A bag closing machine
- **Enhanced product presentation** with the 915A printer
- **Expert support** from dedicated engineers
- **Sustainable option** with our refurbishment program
- **Long-term service** from your refurbishment engineer

About Kwik Lok

Founded in 1954, Kwik Lok is the global market leader in bag closures. The company produces billions of bag closures every year for baking and produce industries and the machinery for customers to print and apply closures. Kwik Lok brings 70 years of expertise to deliver advanced engineering and trusted design. Kwik Lok is owned by third-generation family leadership, with a vision to drive greater sustainability in the industry. Learn more at www.kwiklok.com.
